

Catalonia - Quebec Province, Canada. Call for Proposals for Joint R&D Projects

Launching of the call: 29TH October 2020

Deadline for Submission: 24th November 2020

The Nuclis Programme was first launched in 2012, with an Israel-Catalonia call. In the following years other countries have been included in the scheme, such as Canada, especially the Province of Quebec.

Since 2012 up to 2019, International Nuclis Program has supported 26 Catalan companies (24 projects) with an investment of 6 million euros (Aid: 2,9 million euros)

Scope

This call aims at developing innovative products and applications **in all technological and application areas**. Applicants are expected to develop ready to market solutions or projects which have strong market potential for both Catalonia and Israel.

This 2020 call, Nuclis Internacionals would only have the possibility to fund projects from the Catalan side by ACCIO. Quebecoise companies participating should be self-funded or apply for other available fundings in Quebec/Canada.
