

CV Profile (max. 2 pages length)

i *Faiz Ahmad*

Research interests

Strong research focus on materials processing and properties relationship of functional materials. Focus on Intumescent fire-retardant coatings, Nano composites for thermal management, energy storage, electromagnetic shielding, orientation of short fiber in metal composites and laminated hybrid fiber composite, machining of composite

Education

PhD: (29/09/1986- 19/07/1991)- UK

Undergraduate Degree: (2/04/1978- 15/08/1983)

Sector of activity

Please write the name of sector your research/knowledge can be useful for.

Intumescent fire-resistant coating for building safety, nano composites for electronic industry Polymer composites, bio medical devices

Experience

Please list in reverse order. Indicate the number of months.

- i. Teaching and research 209 mmonth
- ii. Teaching and research 30 months
- iii. Research and industry 118 month
