MONFORT
ALUMINIUM CASTING MAKERS

- Main activity

Gravity and High Pressure aluminium die-casting, including following operations in house:

- Tooling design and manufacturing
- Machining
- Surface finishing options
- Testing

- Our Technology

- HPDC machines from 500T to 1700T
- Vacuum die-casting equipment
- Gravity casting and deburring robotized section
- Automatic tilting gravity casting machines
- 4-axis machining centers and numerical control lathes for parts machining
- X-ray machine equipped with tomography control
- 3D measuring tools

MANSOL
Mansol Projectes, SL

Cambre de Comerç de Sabadell

Catalonia Sourcing Day

6th February 2020

- Main activity

- Cold metal stamping
- Spot, nut welding
- Special assembling

- Our Technology

Compressed air installation (double compressor) and electrical lines of 230V (monophasic) and 380V (triphasic)

Two mechanical presses of 55t, one of 75t and one of 130t. (Which are capable to work in automatic mode)

Two round bending and trimmer cutting machines.

Spot & nut welding machine (capacitor discharge type)

Semi-automatic threaded machines with possibility of double head and robotic arm.

Small support machines: table drills, riveters, ...

Automatic machine for testing electrical quality and safety:

Effectiveness ground wire (EGW), insulation, and dielectric strength up to 4000V and leak current control.

Angular welding machine and head tunnel for retractile packaging.
