 <b>AdMotion.ai</b>	<b>ADMOTION.AI</b> <a href="http://admotion.ai">admotion.ai</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> AdTech / AI   <b>Company Stage:</b> Seed Stage <b>Employees:</b> 3   <b>Funding Round:</b> -
<i>Turning the static product catalog into a dynamic growth engine</i>	AdMotion.ai is an AI-powered SaaS platform that automates and optimizes digital advertising by transforming static product catalogs into high-performing dynamic creatives. By leveraging real-time data and automated design, it helps e-commerce brands and agencies maximize ROAS while drastically reducing manual production costs and time.	<i>Software</i>
 <b>Agrikola.AI</b>	<b>AGRIKOLA</b> <a href="http://agrikola.ai">agrikola.ai</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> AgTech / Robotics & IOT   <b>Company Stage:</b> Pre-Seed   <b>Employees:</b> 5   <b>Funding Round:</b> 600,000
<i>Eradicating chemical pesticides through deep tech</i>	Agrikola.ai eliminates chemical fungicides using autonomous UVC robots and AI. Our rovers protect crops at lower cost with zero residues, higher efficacy, and a scalable Hardware-enabled SaaS model.	<i>Hardware / Software</i>
 <b>Agrin'pulse</b>	<b>AGRIN'PULSE</b> <a href="http://agrinpulse.com">agrinpulse.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> AgTech / Autonomous Robotics   <b>Company Stage:</b> Seed-Stage   <b>Employees:</b> 9   <b>Funding Round:</b> -
<i>Autonomous electric tractor redefining sustainable agricultural operations</i>	Agrin'pulse develops autonomous electric agricultural robots designed to perform field operations efficiently and sustainably. Our technology reduces labor dependency, operational costs, and environmental impact, enabling farmers to increase productivity while accelerating the transition toward smart, data-driven, and low-emission agriculture.	<i>Hardware / Software</i>
 <b>ARBOLEDA INTELLIGENCE</b>	<b>ARBOLEDA INTELLIGENCE</b> <a href="http://arboledaintelligence.com">arboledaintelligence.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Space & Defense / Satellite Data & AI   <b>Company Stage:</b> Pre-Seed   <b>Employees:</b> 5   <b>Funding Round:</b> 250,000
<i>Space and Defense company</i>	Arboleda Intelligence designs next-generation space systems, delivering advanced, reliable platforms for modern missions. Building on this expertise, the company is expanding into the defense sector with a fighter drone solution aimed at providing airspace superiority and enhanced security for European citizens.	<i>Hardware / Software</i>

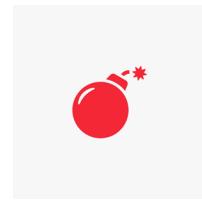

## #4YFN26

 <p><i>No more buttons, by a voice conversation everything is possible</i></p>	<p><b>ATNEA</b> <a href="http://atenealife.com">atenealife.com</a></p>	<p><b>Business Type:</b> B2B2C   <b>Sector/Technology:</b> Healthcare &amp; Social Care / Voice AI &amp; NLP   <b>Company Stage:</b> Seed Stage <b>Employees:</b> 10   <b>Funding Round:</b> 1M</p> <p><i>Software</i></p>
<p><i>No more buttons, by a voice conversation everything is possible</i></p>	<p>ATNEA is an AI-powered voice assistant for elderly people, available as a tablet and smartwatch. Through natural voice interaction and sensor-based alerts, it supports health, safety, and social needs. Integrated with healthcare and social services, ATNEA provides proactive care, emergency response, and autonomy—bridging the digital divide and reducing loneliness.</p>	
 <p><i>AI-powered solutions to develop and activate human skills</i></p>	<p><b>BECHALLENGE</b> <a href="http://bechallenge.io/skillstracker">bechallenge.io/skillstracker</a></p>	<p><b>Business Type:</b> B2B   <b>Sector/Technology:</b> HRTech &amp; Talent Development / AI <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 7   <b>Funding Round:</b> Seed</p> <p><i>Software</i></p>
<p><i>AI-powered solutions to develop and activate human skills</i></p>	<p>BeChallenge is a technology company that designs AI-powered solutions to assess, develop and activate human skills. We help organizations turn skills into actionable data through personalized learning experiences, micro-challenges and real-time insights, enabling smarter talent development, engagement and workforce transformation.</p>	
 <p><i>Where limits dissolve future becomes reality</i></p>	<p><b>BEYOND REALITY AR</b> <a href="http://beyondreality-ar.tech">beyondreality-ar.tech</a></p>	<p><b>Business Type:</b> B2B   <b>Sector/Technology:</b> Digital Industry / AR &amp; IOT   <b>Company Stage:</b> Pre-Seed   <b>Employees:</b> 3   <b>Funding Round:</b> 300,000</p> <p><i>Hardware / Software</i></p>
<p><i>Where limits dissolve future becomes reality</i></p>	<p>Beyond Reality AR delivers industrial augmented reality solutions for automated manufacturing and large warehouses. We connect ERP/MES/WMS/IoT systems and project contextual, hands-free instructions and real-time data through computer vision and holographic optics, reducing errors and cycle time while improving traceability.</p>	
 <p><i>We match</i></p>	<p><b>BOOMERANG INTELLIGENCE</b> <a href="http://boomerang-intelligence.com">boomerang-intelligence.com</a></p>	<p><b>Business Type:</b> B2B   <b>Sector/Technology:</b> HRTech / AI   <b>Company Stage:</b> Seed Stage <b>Employees:</b> 10   <b>Funding Round:</b> 300,000</p> <p><i>Software</i></p>
<p><i>We match</i></p>	<p>Boomerang Intelligence: We connect companies with the ideal talent in less than 10 days, thanks to our AI that assigns the best recruiter for the perfect match.</p>	

## #4YFN26

 <b>BrainFocus</b>	<b>BRAINFOCUS LABS</b> <a href="http://brainfocus.tech">brainfocus.tech</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> HealtTech / AI   <b>Company Stage:</b> Pre-Seed <b>Employees:</b> 7   <b>Funding Round:</b> 200,000  <i>Software</i>
<i>Decision-making software for pre-surgical evaluation of epilepsy</i>	BrainFocus Labs develops AI and software tools to assist clinicians in the diagnosis of people with drug-resistant epilepsy during pre-surgical evaluation. Through integrated visualization and analysis of multiple sources of diagnostic data, we assist the clinical decisions for safer and faster treatments.	
 <b>drimer.ai</b>	<b>DRIMER AI</b> <a href="http://drimer.ai">drimer.ai</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> TravelTech / AI   <b>Company Stage:</b> Seed Stage <b>Employees:</b> 5   <b>Funding Round:</b> 2M  <i>Software</i>
<i>AI for travel agencies</i>	Drimer AI has developed an AI to transform days of work to just minutes.	
	<b>ELEVA AI</b> <a href="http://eleva-ai.com">eleva-ai.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> PropTech & RetailTech / AI   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 6   <b>Funding Round:</b> 450,000  <i>Software</i>
<i>AI-powered Visitor experience platform for high traffic spaces</i>	Eleva is the Visitor experience platform where hospitality, data, revenue, and AI converge. Through modular AI agents that guide, recommend, and resolve instantly, it turns every visit into value. Eleva scales human service through automation, elevates the guest experience, drives incremental revenue, and empowers operators with actionable insights to strengthen loyalty and long-term performance.	
 <b>eScribAI</b>	<b>ESCRIBAI</b> <a href="http://escribai.com">escribai.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> LegalTech / AI   <b>Company Stage:</b> Seed Stage <b>Employees:</b> 3   <b>Funding Round:</b> 1.26M  <i>Software</i>
<i>Domain-specific AI for European law</i>	eScribAI is a LegalTech SaaS platform providing AI-powered legal search, document automation, workflows and knowledge management, specifically designed for European lawyers. Built on domain-specific AI models, it ensures regulatory compliance, data sovereignty and secure deployment for law firms and legal departments.	

## #4YFN26

	<b>ETBO</b> <a href="http://etbo.es/en">etbo.es/en</a>	<b>Business Type:</b> B2B, B2B2C   <b>Sector/Technology:</b> HRTech / Data & AI   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 3 <b>Funding Round:</b> 1.5M <i>Software</i>
<i>The Team Operating System - Designing the human layer of technology</i>	ETBO is a science-based HR Tech ecosystem that helps design and scale high-impact teams. Leveraging organizational psychology (science), data, and AI, it turns observable team behaviors into actionable insights, optimizes roles, measures collaboration, and transforms teams into adaptive, measurable, and future-ready units.	
	<b>FLAMAID</b> <a href="http://flamaid.com">flamaid.com</a>	<b>Business Type:</b> B2B, B2B2C   <b>Sector/Technology:</b> Security Device / IOT   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 9 <b>Funding Round:</b> 1M <i>Hardware / Software</i>
<i>Passive grenades with sound and GPS for emergencies.</i>	FlamAid is a technological startup that develops smart hardware and software for crisis situations. We detect, resolve and map out crimes in urban cities around Europe.	
	<b>FOXTERY</b> <a href="http://foxterry.com">foxterry.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> HRTech / AI   <b>Company Stage:</b> Pre-Seed <b>Employees:</b> 7   <b>Funding Round:</b> 500,000 <i>Software</i>
<i>Create any training your team needs in 30 minutes</i>	Foxterry transforms company documents into interactive training courses in 30 minutes using AI. We serve fast-growing companies where knowledge directly drives revenue. With 20+ enterprise clients including Perk, we've created 1,000+ courses across 100+ companies. Based in Barcelona, backed by S16 VC.	
	<b>INROOM</b> <a href="http://inroom.io">inroom.io</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Hospitality / AI   <b>Company Stage:</b> Pre-Seed <b>Employees:</b> 5   <b>Funding Round:</b> 250,000 <i>Software</i>
<i>Your guest asks, InRoom answers</i>	InRoom is a smart guest communication platform for hotels and accommodations. It automates guest interactions via WhatsApp, improves engagement and loyalty, and helps reception teams save time while delivering a more personalized, efficient, and human guest experience.	

## #4YFN26

	<b>LIZCORE</b> <a href="http://lizcore.com">lizcore.com</a>	<b>Business Type:</b> B2B2C   <b>Sector/Technology:</b> SportTech / Device & Gamification <b>Company</b> <b>Stage:</b> Seed Stage   <b>Employees:</b> 7   <b>Funding Round:</b> 1.5M
<i>Digitizing climbing gyms with gamification, analysis, and enhanced security</i>	Lizcore digitizes climbing gyms with a gamification and analysis system for indoor climbing. It offers access control, user management, and increases SAFETY, thus improving the customer experience. With Lizcore, climbing is more fun and efficient.	<i>Hardware / Software</i>
	<b>MAPPA</b> <a href="http://footprintmappa.com">footprintmappa.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Sustainability & Environment / Data & AI <b>Company Stage:</b> Pre-Seed   <b>Employees:</b> 3 <b>Funding Round:</b> 300,000
<i>Environmental tech partner for industry companies</i>	MAPPA acts as the external sustainability department for industrial companies. Through a digital platform, it enables organizations to measure, report, and reduce climate impact across the value chain, including digital product passports, with precision, automation, and regulatory compliance, transforming sustainability into a strategic business capability.	<i>Software</i>
	<b>METHANOL REFORMER</b> <a href="http://methanolreformer.com">methanolreformer.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Hydrogen, Electricity, Sustainability, Mobility / Chemical Engineering   <b>Company Stage:</b> Growth&Scale   <b>Employees:</b> 23   <b>Funding Round:</b> 8M
<i>Methanol reforming for on-demand clean and cheap H2 and electricity</i>	MReformer designs and manufactures methanol-to-hydrogen reforming systems enabling on-site, low-carbon hydrogen and power production, reducing the need for complex hydrogen transport and infrastructure while supporting industrial, mobility, and remote energy applications.	<i>Hardware / Software</i>
	<b>MOLECULAR GATE</b> <a href="http://molecular-gate.com">molecular-gate.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Security Pharma & Cosmetics / Polargram <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 4 <b>Funding Round:</b> 1.5M
<i>Printed security solutions for smart packaging</i>	Molecular Gate is a deep-tech company developing Polargram™, a patented printable optical security technology that embeds uncopiable, hologram-like structural color features into labels and packaging, enabling instant, hardware-free authentication to combat counterfeiting across sectors such as luxury, pharma, and agrochemicals.	<i>Hardware</i>

## #4YFN26

	<b>NIDDO</b> <a href="http://niddoapp.com">niddoapp.com</a>	<b>Business Type:</b> B2C, B2B   <b>Sector/Technology:</b> FamTech / AI   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 4   <b>Funding Round:</b> 250,000
<i>The operating system for modern families</i>	NIDDO is a FamTech platform building the operating system for modern families. It centralizes coordination, communication, and shared finances into one secure ecosystem, with legal traceability and data intelligence. Designed for complex family structures and scalable across B2C and B2B markets.	<i>Software</i>
 <b>Ocean Ecostructures</b>	<b>OCEAN ECOSTRUCTURES</b> <a href="http://oceaneocostructures.com">oceaneocostructures.com</a>	<b>Business Type:</b> B2B, B2B2C   <b>Sector/Technology:</b> BlueTech / Biomimetic Robotics & AI   <b>Company Stage:</b> Growth&Scale   <b>Employees:</b> 20   <b>Funding Round:</b> -
<i>We renaturalize maritime infrastructures offsetting their environmental impact</i>	Ocean Ecostructures develops bluetech solutions to renaturalize marine infrastructures, turning ports, oil rigs, and submarine cables into blue oases. We have a ROV/AI powered monitoring and reporting system, including digital platforms to track performance. A cost-saving, de-risking, and ESG facilitating solution, already implemented in over 40 leading companies, aligning economic growth and sustainability.	<i>Hardware / Software</i>
 <b>OUTRIGO</b>	<b>OUTRIGO</b> <a href="http://outrigo.com">outrigo.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Automotive, Aerospace & Defense / Robotics   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 6   <b>Funding Round:</b> 3M
<i>Decision-orchestration platform turning critical engineering knowledge into enterprise software</i>	Outrigo is building OASYS, a decision-orchestration platform for critical engineering. It captures, structures and operationalizes engineering decisions across tools and workflows, reducing redesign cycles, qualification risk and knowledge loss. Outrigo expands into a scalable enterprise platform for high-consequence industrial systems.	<i>Hardware / Software</i>
 <b>Pro1X</b>	<b>PRO1X AI</b> <a href="http://pro1x.com">pro1x.com</a>	<b>Business Type:</b> B2B2C   <b>Sector/Technology:</b> FinTech / AI   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 4   <b>Funding Round:</b> 900,000
<i>Optimize your investment strategies using AI for financial markets.</i>	Pro1X AI is an artificial intelligence solution available as app and web platform, helping investors and traders turn complex financial data into clear, easy-to-execute decisions. It offers a global real-time portfolio covering stocks, currencies, commodities, cryptocurrencies, and ETFs, enabling users to optimize strategies and maximize returns without requiring advanced knowledge.	<i>Software</i>

## #4YFN26

 <b>Qbind</b>	<b>QBIND PLATAFORMAS</b> <a href="http://qbind.eu">qbind.eu</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> InsurTech / AI   <b>Company Stage:</b> Early Growth <b>Employees:</b> 20   <b>Funding Round:</b> 2M <i>Software</i>
<i>One comprehensive platform to run, scale and transform insurance operations</i>	Qbind is a comprehensive platform enabling brokers and MGAs to streamline “quote-to-policy” processes, billing, claims and distribution. Our unified, flexible system integrates modern APIs and leverages AI-driven insights to enhance visibility, simplify operations and scale with evolving business needs.	
 <b>Quantum Knowledge</b>	<b>QUANTUMKNOWLEDGE</b> <a href="http://quantumknowledge.tech">quantumknowledge.tech</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Cybersecurity & ComplianceTech / AI <b>Company Stage:</b> Early Growth   <b>Employees:</b> 7   <b>Funding Round:</b> 400,000 <i>Software</i>
<i>Secure intelligent document management powered by AI</i>	QuantumKnowledge develops advanced AI-driven solutions for secure document storage, classification, and knowledge management. The platform integrates artificial intelligence, cryptography, and compliance-by-design to help organizations protect, organize, and extract value from sensitive information in regulated and data-intensive environments.	
 <b>RepScan</b> <small>Digital Reputation Legaltech</small>	<b>REPSCAN</b> <a href="http://repscan.com/en">repscan.com/en</a>	<b>Business Type:</b> B2B2C   <b>Sector/Technology:</b> Hospitality, Retail & Education / AI   <b>Company Stage:</b> Growth&Scale   <b>Employees:</b> 21   <b>Funding Round:</b> - <i>Software</i>
<i>Protecting digital reputations through AI-powered legal technology and automation</i>	RepScan is a leading legaltech scaling globally with a 96% success rate in digital reputation protection. Our AI-driven SaaS platform automates the detection and unlimited removal of harmful content and reviews. Combining proprietary technology with legal rigor, we offer high-margin, scalable solutions for enterprises, SMEs, and social impact.	
 <b>shinephi</b>	<b>SHINEPHI</b> <a href="http://shinephi.tech">shinephi.tech</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Semiconductor & Photonics/ Metrology & AI <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 4   <b>Funding Round:</b> 3M <i>Hardware / Software</i>
<i>High-speed, sub-nanometer optical metrology for zero-defect nanofabrication.</i>	We enable non-destructive highly-stable inspection for zero-defect manufacturing in semiconductor and photonics industries. With our patented technology, our add-on module transforms current imaging systems into high-precision tools, delivering sub-nanometer vertical sensitivity in real time.	

## #4YFN26

 <b>TECHWICH</b> <a href="http://techwich.net">techwich.net</a>	<b>TECHWICH</b> <a href="http://techwich.net">techwich.net</a>	<b>Business Type:</b> B2B, B2C, B2B2C <b>Sector/Technology:</b> EdTech & HRTech / AI <b>Company Stage:</b> Seed Stage <b>Employees:</b> 9   <b>Funding Round:</b> -
<i>Personalized learning, powered by AI</i>	Techwich is an AI-powered learning platform that personalizes education by combining multi-source data—learner signals (goals, skills, pace, preferences), behavioral and performance data, and contextual/environmental data—and, where available and consented, health-related signals that can impact learning. This fusion enables adaptive content, smarter recommendations, and measurable progress for individuals and organizations.	<i>Hardware / Software</i>
 <b>True Data Labs</b>	<b>TRUE DATA LABS</b> <a href="http://truedatalabs.com">truedatalabs.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> FinTech, Real State, GovTech / Data Verification <b>Company Stage:</b> Pre-Seed   <b>Employees:</b> 5 <b>Funding Round:</b> 300,000
<i>Certify all user data on internet instantly</i>	TrueData enables tamper-resistant user data verification directly from original online sources in under 30 seconds, without integrations. Using HTTPS, it delivers GDPR-compliant, minimal-data proofs for identity, income, purchases, and interactions. Products include TrueMe for fintech, real estate, govtech, and TrueSocial for court-ready messaging and social media evidence.	<i>Software</i>
 <b>TTDo</b>	<b>TTDO</b> <a href="http://ttdo.tech">ttdo.tech</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Textil / 5G, Blockchain   <b>Company Stage:</b> Pre-Seed   <b>Employees:</b> 2   <b>Funding Round:</b> 400,000
<i>Smart Clothing for Smart Businesses</i>	Smart Clothing solution that integrates miniaturized electronics, 5G connectivity, and blockchain technology to enable interaction between workers and the industrial environment. It delivers predictive alerts for machine downtime and safety risks without compromising user comfort or workflow. TTDo boosts operational efficiency, reduces workplace accidents, and empowers people through digital transformation.	<i>Hardware / Software</i>
 <b>vericta</b>	<b>VERICTA</b> <a href="http://vericta.com">vericta.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Media / AI   <b>Company Stage:</b> Seed Stage <b>Employees:</b> 8   <b>Funding Round:</b> 100,000
<i>Protect your company from fake media</i>	Vericta is an AI-powered media intelligence platform that detects AI-generated and manipulated images, video, and audio. Through a scalable, developer-friendly API, it supports fraud prevention, identity verification, insurance claims, and compliance. Vericta helps enterprises mitigate risk, protect trust, and adapt to the rapidly evolving generative AI landscape.	<i>Software</i>

## #4YFN26

 <b>Volum</b> <sup>Tech</sup>	<b>VOLUM TECH</b> <a href="http://volum.tech">volum.tech</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Healthcare, Education & Hospitality / XR <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 3 <b>Funding Round:</b> 500,000  <i>Hardware / Software</i>
<i>Real-time holoportation</i>	Volum Technologies is a deep-tech company specializing in real-time holoportation and immersive 3D communication. Officially launched in July 2025, Volum focuses on democratizing holographic telepresence by making high-quality, real-time 3D capture accessible using standard commercial cameras.	
	<b>WAIIS</b> <a href="http://waiis.eco">waiis.eco</a>	<b>Business Type:</b> B2B, B2C, B2B2C   <b>Sector/Technology:</b> Smart City / Mobility   <b>Company Stage:</b> Early Growth   <b>Employees:</b> 10 <b>Funding Round:</b> 2M  <i>Software</i>
<i>Think data, move better</i>	We connect people and commutes through our GeoAI.	
 <b>watlas</b> <small>Regenerative thinking</small>	<b>WATLAS</b> <a href="http://watlas.eu">watlas.eu</a>	<b>Business Type:</b> B2B, B2C   <b>Sector/Technology:</b> Circular Economy, Logistics & Sustainability / AI   <b>Company Stage:</b> Early Growth   <b>Employees:</b> 4   <b>Funding Round:</b> Bootstrapped  <i>Hardware / Software</i>
<i>Stop wasting. Start composting</i>	Watlas provides intelligent urban biowaste management through Compost as a Service. We combine low-emission logistics, end-to-end traceability and proprietary software to transform food waste into premium, locally produced compost, reducing landfill dependency while regenerating depleted soils.	
 <b>WIPASS</b> <sup>®</sup>	<b>WIPASS</b> <a href="http://wipass.ai">wipass.ai</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Hospitality & Retail / AI   <b>Company Stage:</b> Seed Stage   <b>Employees:</b> 9   <b>Funding Round:</b> 2.5M  <i>Hardware / Software</i>
<i>One touch. Endless connections</i>	Personalised communication with guests, together with full integration of the digital ecosystem with which they interact during their stay, can have a very positive impact on the hotelier's objectives, both in terms of revenue and operations.

## #4YFN26

 <p>Emergency Brain Diagnostics</p>	<b>ABCDx</b> <a href="http://abcdx.ch">abcdx.ch</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Diagnostics   <b>Company Stage:</b> Pilot/Clinical/Regulatory   <b>Employees:</b> 6   <b>Raised Investment (M€):</b> 21
<i>First digital, mobile biomarker-based diagnostic solution</i>	ABCDx revolutionizes emergency brain diagnostics by combining proprietary biomarkers with artificial intelligence, delivering rapid, accurate, and accessible pre-hospital detection of large vessel occlusion (LVO) strokes.	
 <p><b>AiMA</b> Empathic Ai <a href="http://www.aima.chat">www.aima.chat</a></p>	<b>AIMA BEYOND ARTIFICIAL INTELLIGENCE</b> <a href="http://aima.chat">aima.chat</a>	<b>Business Type:</b> B2B SaaS   <b>Sector/Technology:</b> Digital Health   <b>Company Stage:</b> Development/Prototype   <b>Employees:</b> 8   <b>Raised Investment (M€):</b> 2,75
<i>Healthier, safer and happier aging with empathic Ai</i>	AiMA Beyond AI is a startup that develops empathetic virtual assistants to improve care for elderly people with chronic conditions or experiencing unwanted loneliness.	
 <p><b>allpriv</b> CyberSecurity for Medical Devices</p>	<b>ALLPRIV</b> <a href="http://allpriv.com">allpriv.com</a>	<b>Business Type:</b> -   <b>Sector/Technology:</b> Supplier & Engineering   <b>Company Stage:</b> -   <b>Employees:</b> 7   <b>Raised Investment (M€):</b> 0,36
<i>Cybersecurity for Medical Devices</i>	At Allpriv, we are manufacturers of an HSM (Hardware Security Module) managed by AI agents on blockchain. The main application is the protection of medical devices for hospitals, helping manufacturers integrate our modules and comply with the new regulatory requirements.	
 <p><b>ARKEOBOTS</b></p>	<b>ARKEOBOTS</b> <a href="http://arkeobots.com">arkeobots.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Digital Health   <b>Company Stage:</b> -   <b>Employees:</b> 3   <b>Raised Investment (M€):</b> -
<i>For a world where aging is smiled upon</i>	Arkeobots is a technology company that develops artificial intelligence-enabled social robot companions aimed at supporting older adults by providing interaction, emotional engagement, and connection with families and caregivers. Its flagship project, the humanoid robot Arkeo, is designed to converse naturally, recognize emotions, suggest activities, offer reminders, and facilitate communication to help reduce loneliness and enhance well-being among seniors.

 <p><b>BETTSO</b> <b>CORPORATION</b> <a href="http://bettso.es">bettso.es</a></p>	<p><b>BETTSO</b> <b>CORPORATION</b> <a href="http://bettso.es">bettso.es</a></p>	<p><b>Business Type:</b> -   <b>Sector/Technology:</b> Digital Health   <b>Company Stage:</b> Pilot/Clinical/Regulatory   <b>Employees:</b> 2   <b>Raised Investment (M€):</b> -</p>
<p><i>Immersive audio for therapeutic patient experiences</i></p>	<p>Bettso is a healthtech platform delivering therapeutic audio content, based on applied neuroscience and binaural (3D) sound, designed to modulate the autonomic nervous system in clinical settings. It supports emotional regulation, reduces anxiety, and enhances therapeutic processes through a non-pharmacological, scalable solution that can be integrated into healthcare protocols.</p>	
 <p><b>Chemotargets</b></p>	<p><b>CHEMOTARGETS</b> <a href="http://chemotargets.com">chemotargets.com</a></p>	<p><b>Business Type:</b> B2C and B2B2C   <b>Sector/Technology:</b> R&amp;D Services   <b>Company Stage:</b> On the market   <b>Employees:</b> 31   <b>Raised Investment (M€):</b> 0,48</p>
<p><i>Generative Design of Precision Drugs</i></p>	<p>Chemotargets SL offers validated and cutting-edge computational methodologies with top market predictive performance. The innovation strategy of the company is driven by new methods generated at Dr. Mestres' lab. Chemotargets helps the biopharma industry in the process of bringing new medicines to market, speeding up drug discovery and development, and improving cost-efficiency and safety.</p>	
 <p><b>COTI</b></p>	<p><b>COTINCLUSIVA</b> <a href="http://micoti.es">micoti.es</a></p>	<p><b>Business Type:</b> B2B   <b>Sector/Technology:</b> Digital Health   <b>Company Stage:</b> Pilot/Clinical/Regulatory   <b>Employees:</b> 6   <b>Raised Investment (M€):</b> 0,01</p>
<p><i>COTI connects senior with their families and healthcare professionals</i></p>	<p>COTI is a digital platform developed by COTINCLUSIVA SL that facilitates communication between elderly and dependent individuals and their families and social care professionals.</p>	
 <p><b>DEBIOS</b></p>	<p><b>DEBIOS DIAGNOSTICS</b> <a href="http://debiosdx.com">debiosdx.com</a></p>	<p><b>Business Type:</b> B2B   <b>Sector/Technology:</b> Diagnostics   <b>Company Stage:</b> Pilot/Clinical/Regulatory   <b>Employees:</b> 6   <b>Raised Investment (M€):</b> 18</p>
<p><i>Redefining kidney care with non-invasive diagnostics</i></p>	<p>Debios is developing the first urine test for the detection of renal fibrosis, enabling early diagnosis of chronic kidney disease and improved non-invasive patient monitoring, supporting more effective and personalized care.</p>	

## #4YFN26

	<b>FLOMICS BIOTECH</b> <a href="http://fomics.com">fomics.com</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> R&D Services   <b>Company Stage:</b> On the market   <b>Employees:</b> 20   <b>Raised Investment (M€):</b> 54
<i>Blood test for multi-cancer early detection using AI and RNA biomarkers</i>	Flomics Biotech is a pioneering startup with the aim of translating cutting-edge research in circulating free RNA (cfRNA) into the development of a powerful liquid biopsy technology for the early detection of multiple cancer types in a minimally invasive way from a single blood sample, even at Stage I.	
 <b>HealthTech INNOVATIONS</b>	<b>HEALTHTECH INNOVATIONS</b> <a href="http://healthtechinnovations.es">healthtechinnovations.es</a>	<b>Business Type:</b> B2B   <b>Sector/Technology:</b> Medical Technology   <b>Company Stage:</b> On the market   <b>Employees:</b> 11   <b>Raised Investment (M€):</b> 2
<i>Elevating medical care through surgical intelligence</i>	Healthtech Innovations is a Deep Tech spin-off developing artificial intelligence and robotics solutions for the operating room and hospital sterilization units. Our technology enhances patient safety and optimizes surgical nursing workflows.
